FINAL UPDATE: BOOST AND Maryland 529 Information for ALL families

May 5, 2026

Dear parents,

As you know, the **BOOST** (Broadening Options and Opportunities for Students Today) **Scholarship** application for the 2026-2027 school year will close **this Friday, May 8, 2026**, at 11:59 PM. If you have not submitted your application yet and think you may be eligible, please do so ASAP, after reviewing the information provided below.

BOOST application ‘accounts’: If you are a first-time applicant, you will need to create an account. If you have an account from last year, you can simply log in using your previous username and password.

Income eligibility: As noted in previous communications, the eligibility numbers for the program were updated following the federal government’s release of 2026-27 Free And Reduced Meals (FARMS) Program numbers. See the numbers below to determine if you qualify.

NEW AND UPDATED FIGURES FOR ELIGIBILITY FOR THE BOOST PROGRAM

Updated Figures for the 2026-2027 BOOST Program			
Household Size: Parent(s) + children	Annual Household Income:	Household Size: Parent(s) + children	Annual Household Income:
2	\$40,034	7	\$92,574
3	\$50,542	8	\$103,082
4	\$61,050	9	\$113,590
5	\$71,558	10	\$124,098
6	\$82,066	Each additional child	Add \$10,508

Annual household income is the figure on **Line 11A (Adjusted Gross Income)** of your **2025** Form 1040 Tax Return. If you fall within these numbers you are eligible. If you come close, but make a bit more than the numbers here, you may still be eligible once the new numbers are released!

NOTE: Each applying family MUST have already filed their 2025 tax return - and have it available to upload - in order to complete the application. If a family is not sure if they are *required* to file a tax return, please speak to a tax advisor ASAP.

Two important notes on your tax return: 1. If your 1040 tax return pdf is **password protected**, you must have it saved in an **unlocked** format before uploading it to the BOOST application portal. 2. The IRS does not require **parsonage payments** to be included in your “annual household income” when filing your taxes.

More than four children applying: The application portal only allows for up to four children to apply at one time. If you have more than four children in K thru 12, you **MUST** respond to the prompt asking “**do you need to apply for more children...**”. You should then email boost.msde@maryland.gov, stating that you have additional children for whom you wish to apply for BOOST. Make sure to include your name and phone number in your email. In response you will receive a form allowing you to add additional children to your application.

Definition of Kindergarten: In schools that have **Pre1A** as the year prior to first grade, what that school calls “kindergarten” is actually still considered nursery and thus not an eligible grade. For the BOOST application, **children in Pre1A should select “kindergarten”**.

Enrollment confirmation letters are NOT required by the system during the application.

Special needs scholarships: If your child receives any **paid special education service in school** (whether it’s via an IEP, ISP, 504, or other individualized plan; or a professional evaluation memo), be sure to respond “yes” on the application and upload the supporting document(s). If the special education arrangement is administered by the school, the school must provide this documentation in order to receive the additional funds.

BOOST application assistance: Our office is standing by to assist families with their applications and to answer questions. Email us at BOOST@agudahmd.org or call **410-484-3632** or **410-775-8525** if you need ANY assistance.

The Maryland State Department of Education (MSDE) will be available for [virtual assistance](#) every Wednesday at 12 noon. (Links to the webinars are posted on the BOOST application page, in addition to the hyperlinks on this document.)

Maryland 529 College (and K – 12) Investment Program

Since 2018, all families with children in K-12 have been able to benefit from Maryland’s 529 College Investment Program. The **state tax deduction** on 529 investments is NOT limited by income level and thus **EVERY household can benefit from MD 529**. Within the MD 529 program is an additional opportunity called the **State Contribution Program** (aka the **Maryland Match**), which provides the opportunity for **income eligible households only** to receive a larger direct benefit **instead** of what the tax deduction offers. To qualify for the Match, each account holder (**including previous Match recipients**) must apply before the **May 31, 2026** deadline.

A few important points to remember regarding the Match, account holders, and beneficiaries:

1. A beneficiary (birth till 26) may receive match contributions from two account holders per year
2. Both the account holder and beneficiary must be Maryland residents
3. Any Marylander above 18 years old can be an **account holder** and can apply for the match **for themselves as a beneficiary - and may also select their siblings or others as their beneficiaries**
4. The account holder must file their income taxes by July 15, 2026 – or – if they do not have income to report, they must submit the [linked affidavit](#) by 5/31
5. Each account holder’s lifetime “Match” total (from all of their beneficiaries) is capped at \$9,000
6. **Parents who have reached their \$9K cap, can pursue other potential account holders to select their children as beneficiaries, including siblings 18 and up, as explained in #3 above**
7. An account holder’s income eligibility is based on **adjusted gross income** (not taxable net income)

REMEMBER: Even if an account holder is maxed out of the Match’s \$9,000 cap, they are still eligible for the 529 tax deduction benefits.

Please visit our 529 webpage Tuition529.com for more information, links, and guidance documents to help setup and fund Maryland 529 accounts. You may also contact our office using the above contact info.

Best wishes,
